

# Wet Carpet Drying Quotes in Houston: What Should Be Included?

## Printable carpet quote checklist

| Scope to compare                  | Ask the provider to put this in writing                                                                                        |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Assessment and affected materials | Which rooms, carpet face/backing, padding, subfloor or slab, and adjoining wall edges will be checked?                         |
| Extraction and drying             | What water removal, carpet lifting or manipulation, cleaning and drying work is included? What findings could change the plan? |
| Padding and other removal         | What supports drying versus removal? Who approves changes, and are disposal and replacement included?                          |
| Equipment billing                 | How many units, at what daily rate, for how many estimated days? When does billing start/stop, and who approves extra days?    |
| Monitoring                        | Which material readings will be recorded, where, and how often? Is monitoring billed separately?                               |
| Completion documents              | What readings or written explanation support completion? Will I receive the drying record and itemized invoice?                |
| Contents and finish work          | Who moves contents, reinstalls carpet and repairs finishes? Which tasks and charges are excluded?                              |

Use the browser’s Print command, or the print button below, to take this checklist to the call. These are quote questions, not a prescription to save or remove a material.
